

A close-up, macro photograph of a light-colored fabric, possibly a textile or paper, showing a fine, woven texture. The fabric is folded, creating a sharp crease that runs diagonally across the frame. The lighting is soft and even, highlighting the intricate details of the weave. The overall tone is warm and neutral, with subtle variations in beige and cream colors.

## ECO TEXTILE MILLS IN CAMBODIA FOR NATURAL FIBER FABRICS

---

For Eco Fibers, part of Samatoa company, respect for the environment is fundamental, that why our workshop only works from fibers that are 100% natural, ecological and respectful of our clients' health.

We have supported the creation of the first natural fiber weaving in Cambodia in order to be able to create our own unique collections of natural fibers from the spinning and weaving stages.

Thus, we collaborate directly with:

- Experts in the production of silk, organic cotton, kapok and lotus
- Weavers : we design our own combinations of threads, textile designs and colours.
- Experts in embroidery and silk screening.

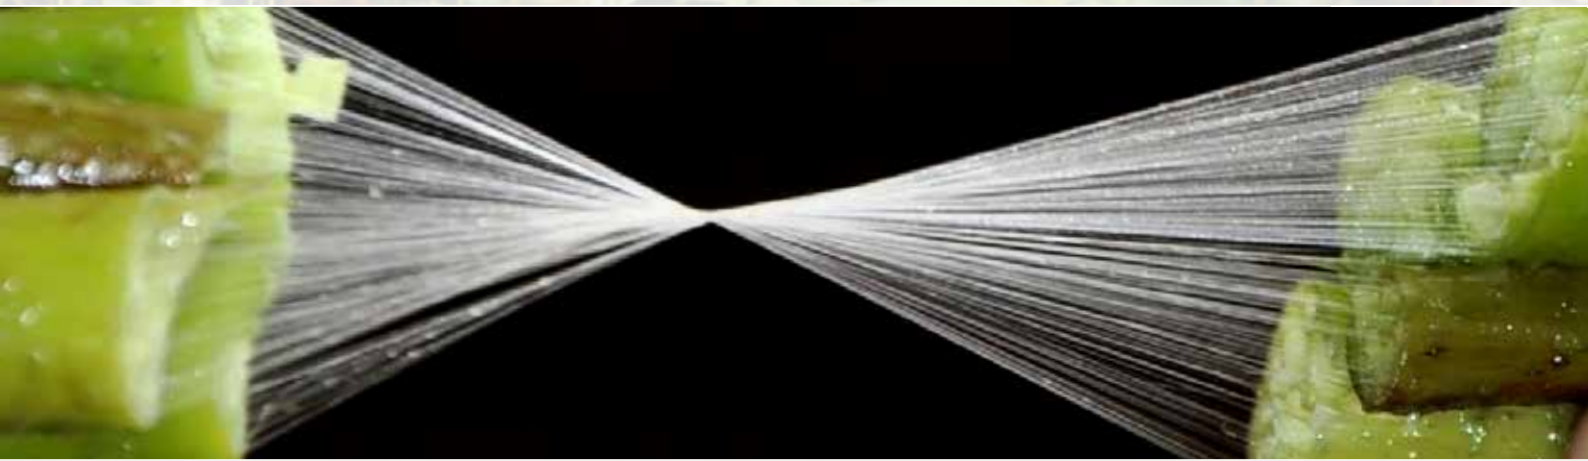

Thanks to this ten year old multicultural collaboration, Eco Fibers has developed intensive research in the development and expertise of high quality silk production.

Our experts produce the best quality lotus cloth in the world. Thanks to this new cloth, we have enabled the creation of 30 new training posts in 2012: lotus thread weavers, lotus harvesters, lotus fiber treatment, expert lotus weavers and lotus quality control supervisors.

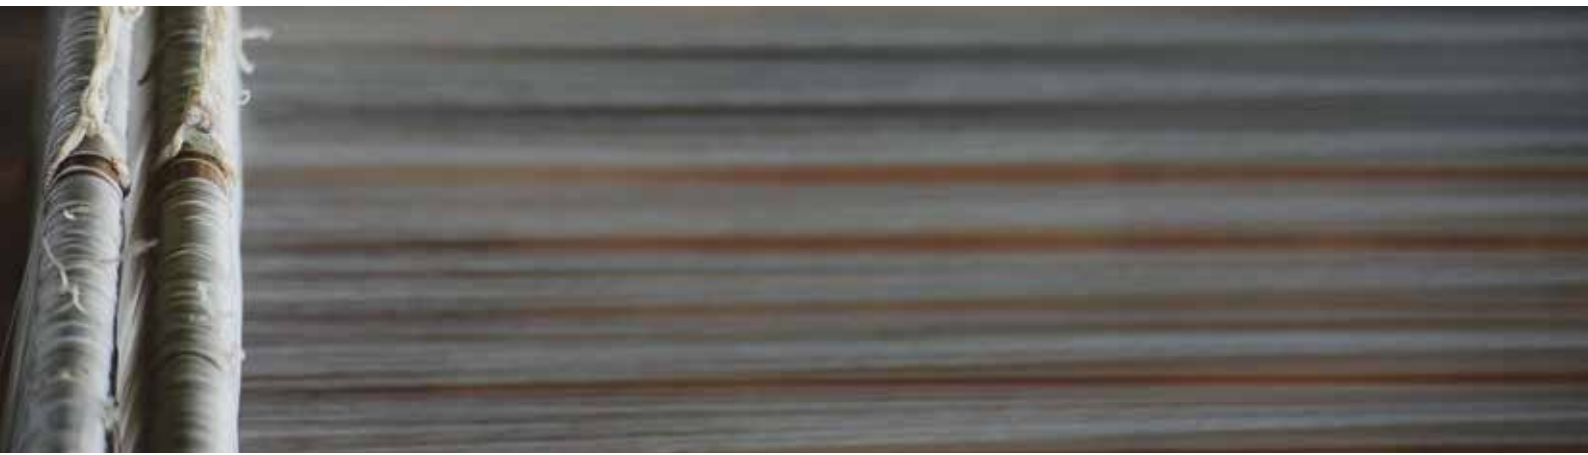

Our dyeing programs aim to limit to the utmost environmental impact by eliminating completely any use of noxious chemical products thus offering true advantages from environmental and health points of view.

# Lotus

PRODUCT CODE	TYPE OF MATERIAL	WIDTH		WEIGHT		UNIT PRICE
		meter	yard	gramme / meter	momme	MOQ > 40m
LS	80% Lotus, 20% Silk	1,00	1,09	135	36	\$ 190,00

PRODUCT CODE	TYPE OF MATERIAL	WIDTH		WEIGHT		UNIT PRICE
		meter	yard	gramme / meter	momme	MOQ > 20 m
LT	100 % Lotus	1,00	1,09	200	53	\$ 318,00

# Kapok

PRODUCT CODE	TYPE OF MATERIAL	WIDTH		WEIGHT		UNIT PRICE
		meter	yard	gramme / meter	momme	MOQ > 40m
KP	85% Kapok, 15% Silk	0,98	1,07	100	32	\$ 140,00

# Banana

PRODUCT CODE	TYPE OF MATERIAL	WIDTH		WEIGHT		UNIT PRICE
		meter	yard	gramme / meter	momme	MOQ > 40m
BN	60% Banana, 40% Silk	0,98	1,07	50	12	\$ 90,00

# Silk

CODE	TYPE OF SILK	WIDTH		WEIGHT		PRICE

CODE	TYPE OF SILK	WIDTH		WEIGHT		PRICE			
		meter	yard	gram / meter	momme	NO MOQ	>10 m	>80 m	>200 m
SS	Raw silk	0,98	1,07	100	28	\$25,50	\$17,00	\$12,40	\$10,70

All these fabrics are organical and woven by hand following traditionnal khmer techniques.

All the fibres are natural and so rare, thus quantities are unsettled and limited.

We dyed any colors requested with a quality non heavy metal dyed (dystar).

All prices indicated are for information only, prices can vary at anytime.
